Its redesigned interface feels more like Adobe Photoshop & Illustrator, so you can seamlessly switch programs with no loss of productivity!

Use the design power of PageMaker 6.5 to create complex layouts! You can even use its preset 15 template designs for a head start!

You can import Adobe Illustrator files directly into PageMaker 6.5! And fill your reports, proposals and presentations with sit-up-and-take-notice pizzazz.

PageMaker 6.5's New Features:

- Document-wide layers and auto reformatting
- Automatic layout adjustment, for instantly repositioning, resizing and reflowing text
- Text & graphics frames for setting up a page layout independent of its content
- Grouping, Locking and Masking for even more design flexibility
- Kodak Precision Color Management System helps provide accurate and consistent color
- Convert PageMaker™ publications to HTML for Internet publishing, or to Adobe™ Acrobat™ files for electronic distribution
- More than 15 new template designs for creating complex layouts almost instantly
- AdobeTable 3.0 software with support for color helps you design truly illustrative tables

Leasing! Leasing! Leasing!

How Leasing Works:

- Tell your MacMall® sales rep you want to lease
- We'll take a short application
- We'll call you with a credit decision within 4 hours
- If approved, we'll fax you a lease agreement
- You sign the lease agreement, and fax it back
- When we receive the signed lease, we'll ship your order (usually the same day)

Grab Your Macintosh® PowerBook® 1400 with the 6X CD-ROM Drive Today!

Meet Apple's Totally Portable Multimedia PowerBook!

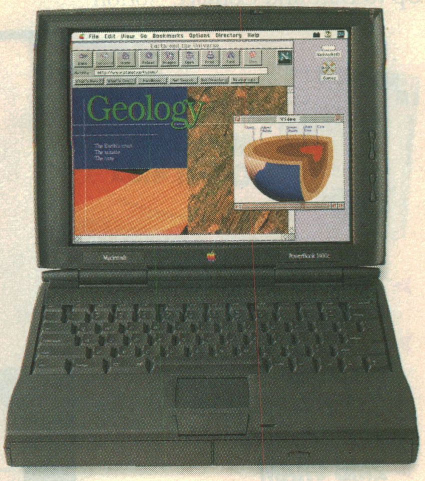
They're hot, they're stylish and yes, they're multimedia-ready! The Macintosh® PowerBook® 1400 includes everything you need for taking multimedia on the road. It features a removable, modular 6X CD-ROM drive (in most models) that you can use to run CDs and multimedia applications at the office and on the road.

Take a closer look at the Macintosh® PowerBook® 1400!

Its 117MHz PowerPC 603e processor can easily tackle any work you care to throw its way. Plus, it includes 12 or 16MB of RAM and a memory expansion slot so you can "piggyback" memory cards. This enables you to easily expand to 64MB without sacrificing your initial memory investment. And the 11.3" dual scan or active matrix color display supports thousands of colors at 800 x 600dpi resolution. (Note: this higher resolution makes viewing Web pages on your PowerBook easier than ever before).

SAVE up to $\$69^{98}$ off a Macintosh® PowerBook® 1400 with our EXCLUSIVE Instant Cash-Back Rebate!

That's right! When you order your Macintosh PowerBook 1400c from us, you'll SAVE $\$69^{98}$ instantly! It's our way of proving to you that we really are the catalog with the great deals!



Its large 11.3" dual scan or active matrix display gives you thousands of bright, vivid colors and ample room for viewing your work!

Bonus: Order your Macintosh® PowerBook® 1400 from MacMall and get Fractal Design Painter 4.0 FREE!

(a $\$9^{99}$ handling fee applies)

It's a great addition to your new Macintosh Powerbook 1400! Fractal Design Painter 4 features eye-popping technology. You can create tile-mosaic images using its Mosaic features. Paint collaboratively on a network. And its included Painter 4 EXTRA CD-ROM includes Patterns and Nozzles palettes for painting with distinct image elements! Call us to order. And pick up a blazing-fast portable PowerPC notebook (and a FREE Painter 4.0) at a really great price!

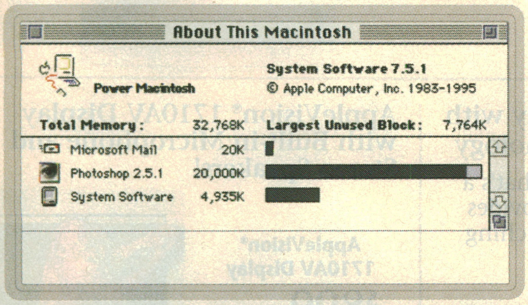
How To Determine How Much RAM You Already Have

Your computer's current RAM information is only a couple of mouse clicks away. First, go to the Finder and pull down the Apple® menu. Select "About this Macintosh®" at the top of the list. A box will come up that tells you the type of Mac™ you have, the system software version you're running, your "Total Memory" (RAM), your "Largest Unused Block" (Unused RAM), and exactly how much memory your system software and each open application has reserved. It's that easy.



About This Macintosh

What is Cache Memory? Do I Need it?

Cache memory allows your computer to quickly remember recently written blocks of data. It can be thought of as a "post-written" system, rather than a "read-ahead" system. If you need the same information again, the cache memory can retrieve it faster than your disk!

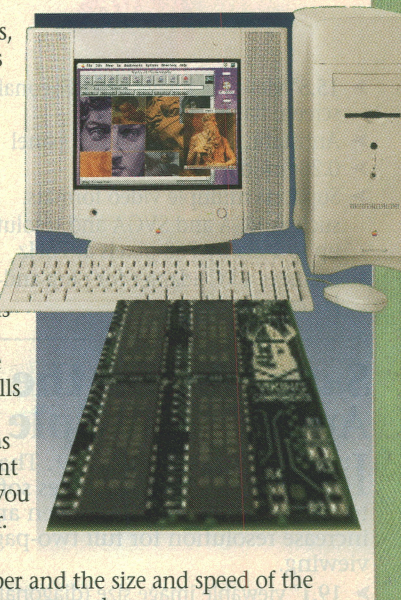
#80335	256K Cache -7200, 8500	$79
#81955	256K Cache -7500	$79
#80336	512K Cache -7200, 7500	$159

What Exactly is VRAM and Why Do I Need It?

VRAM is Video RAM. Install more VRAM in your Mac™, and you'll see more colors on your monitor. Your reds will be brighter, your blues will range from royal to robin's egg and every shade in between.

#55831	256K VRAM	$21
#60488	512K VRAM	$29
#74332	1MB VRAM DIMMs/112pin/64-bit	$59
#74050	2MB VRAM for Power Mac™ 9500 Model	$129

How to Order the RAM that's Exactly Right for Your Computer:



When you use the handy charts on the next 3 pages, choosing the right SIMMs and DIMMs for your machine is pretty easy.

Just follow these simple steps:

1. Locate your computer model in the first column of the chart. The number in parentheses below your model name is the amount of RAM your computer originally came with. This column also tells you how many memory sockets your computer has and the maximum amount of memory (in MB) that you can put in your computer.

2. The second and third columns give order number and the size and speed of the SIMMs or DIMMs you'll want to order.

3. The fourth and fifth columns give you the per item price for the SIMMs and DIMMs you've chosen.

4. Call today to order the SIMMs and DIMMs you want and you could have more memory installed in your computer by tomorrow.

#83709	SnapScan Automatic Document Feeder (60 pgs.)	*now* $249.99

Here are just a few of the things you can do with your Agfa scanning software:

- **Descreening**—smudge out pixel patterns in scanned images
- **Unsharp masking**—evenly sharpen scanned images
- **Crop, rotate, and resize**—select the image position and size you desire
- **Automatic Resolution Calculation**—through a few simple questions, optimal resolution is chosen for you
- **Batch scanning**—scan multiple images, with unique settings
- **Manual Color Control**—adjust color within an image through tools like density and gamma control
- **Negative Film Adjustments**—Scan negative film into a positive image! Eliminates the orange color cast over negatives
- **QuarkXTension**—Agfa's one-of-a-kind plug in allows images to be scanned directly into Quark

StudioStar— The Graphic Professional's Choice.

Welcome to high speed color scanning! The StudioStar saves you time by reading three CCD lines instead of the usual one. It descreens and removes those unwanted dot patterns from previously printed materials. And its unsharp masking helps you sharpen rough edges and "snap back" flat scans. Plus, it includes the same high productivity software as higher end Agfa scanners. Order yours today.

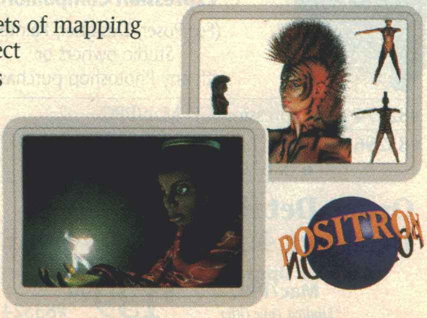
MeshPaint 3D... The Real-Time 3D Paint for Your Power Mac™!

Ever wonder how artists from Dreamworks Interactive, Lucas Arts and Sega render those amazing bits of 3D eye candy? If it includes painting directly onto 3D object surfaces, they do it with MeshPaint 3D! It even works when painting involves multiple surfaces and custom-fitting bitmaps to 3D models. Textures and paint strokes are contoured to surfaces just as if painting on a real 3D object. And the PolyMap feature helps you "unwrap" 3D objects into 2D for precise paint control.

- Supports multiple sets of mapping coordinates per object
- Paint across textures
- Loads all major geometry formats
- Helps you paint in real time



Give your characters an edge! MeshPaint's precise texture mapping makes it ideal for painting faces.

Enjoy Foolproof Prepress Files with NEW FlightCheck!

It happens. You check your prepress files carefully, but there are still costly problems! What to do? Just order FLIGHTCHECK. This revolutionary stand-alone application scans your QuarkXPress and PageMaker files, and warns you of over 140 potential problems. It verifies validity of elements such as colors, fonts and images. It reports a host of possible problems like missing images and fonts. And keeps its eagle eye on problems like unused spot colors (that could result in printing additional plates). Order today! You'll never have to "eyeball" your prepress files again! Available for Windows™ also.

Order & Register to Win A Mercedes SLK!

FOUR WAYS TO ENTER: (1) You will be automatically entered each time you place an order by calling Creative Computers' 800 number. To be eligible for the sweep-stakes, your order must be received by midnight 12/31/97. (2) Or place an order by mail or hand print your name, company name, and address (including Zip Code) on a 3" x 5" piece of paper and mailing in a hand addressed #10 envelope, with first class postage affixed, to: Creative Computers' Sweepstakes, 914 South Hoover Street, Los Angeles, CA 90006. Limit one entry per envelope. No mechanically reproduced entries permitted. Entries must be postmarked by 12/31/97 and received by 1/7/98. (3) You may enter by making a purchase at a participating Creative Computers retailer by close of business, 12/31/97 or by depositing your completed entry in the receptacle provided. (4) You may enter by following all the instructions provided on the Creative Computers Web Site. The Creative Computers Web Site can be reached via the following URLs: http://www.creativecomputers.com; http://www.macmall.com; http://www.pc-mall.com.

RANDOM DRAWING: Winner will be selected in a random drawing on or about 1/14/98 from among all eligible entries received by D. L. Blair, Inc., an independent judging organization whose decisions are final. Prize will be awarded and winner notified by mail. Odds of winning will depend upon the number of eligible entries received.

PRIZE & APPROXIMATE RETAIL VALUE: One Grand Prize of a Mercedes SLK ($50,000.00) will be awarded.

GENERAL RULES: There is no purchase necessary. Open only to residents of the U.S. who are 21 years or older at the time of entry. Employees of Creative Computers, Inc., their affiliates, subsidiaries, advertising and promotion agencies and the immediate family members and/or those living in the same household of each are not eligible. Void where prohibited by law. Not responsible for lost, late, misdirected, mutilated or illegible entries, entries not received in time for the random drawing, or mistranscribed entries or faulty telephone transmission. Winner may make no substitution or transfer of prize. All federal, state and local taxes, insurance, licensing, registration and title fees are the sole responsibility of winner. All federal, state and local laws and regulations apply. Potential winner must execute any required Affidavit of Eligibility/Release of Liability/Prize Acceptance form within 15 days of attempted notification. Noncompliance within this time period may result in disqualification and an alternate may be selected. Return on any prize notification as undeliverable will result in disqualification and an alternate will be selected. Sponsor reserves the right to substitute prize of equal or greater value. Acceptance of prize constitutes permission to the sponsor and its agencies to use winner's name and/or likeness for purposes of advertising and trade without further compensation, unless prohibited by law. By participation in this promotion, entrants agree to be bound by the Official Rules and the decision of the judges. For name of winner, available after 2/15/97, send a separate, stamped, self-addressed #10 envelope to: Creative Computers Winner, P.O. Box 4848, Blair, NE 68009.

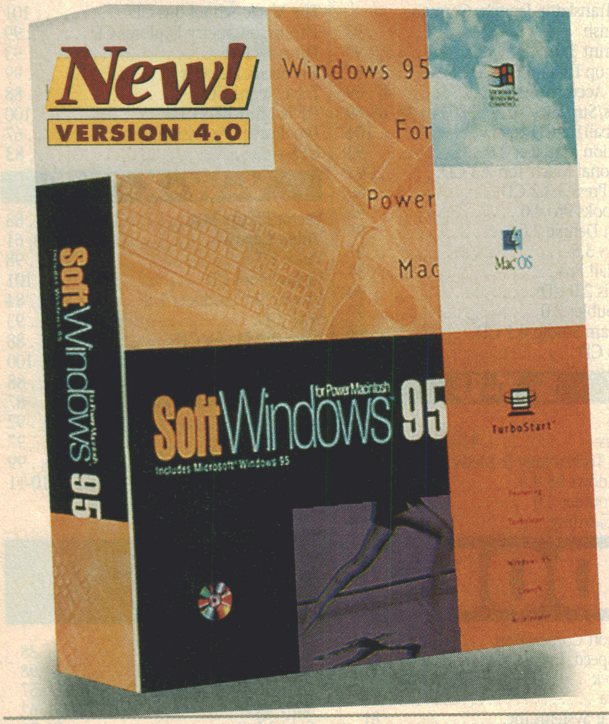
SoftWindows™ 95 is Now 30% FASTER!

Run all Windows® 95 applications on any Power Mac®! NEW SoftWindows 95 4.0 gives you a performance gain of 30% over the previous version. It's the only compatibility solution for your PowerPC™-based PowerBook



New! VERSION 4.0
Windows 95 For Power Mac
Mac OS
SoftWindows 95 for Power Macintosh
Includes Microsoft® Windows 95
TurboStart

(so you can access your company's Windows 95 database while you're on the road). And it's the only product that includes a complete set of 32-bit drivers with improved performance for networking, CD, SCSI and mouse.

SoftWindows 95 is completely Internet-ready! It includes preinstalled Microsoft Internet Explorer 3.0 for the easiest browsing, downloading and content manipulation on the World Wide Web. It even includes Microsoft Office Viewers, for reading PC documents online and on Intranets. One of SoftWindows 95's newest additions is TurboStart™. This breakthrough technology boots up Windows 95 on your Power Mac in a matter of seconds (instead of the minutes of wait time on a hardware PC). Order it today for complete Windows 95 access.

- Internet ready—supports Java and Active X so you can view dynamic Web pages
- 30% faster; faster than hardware cards on fast Mac machines
- Includes Microsoft Internet Explorer 3.0 with Real Audio, Macromedia ShockWave, Aladdin's StuffIt Expander and Pkware's Pkzip/Unzip
- Viewers for Word, Excel and PowerPoint

SoftWindows 95 now supports thousands or millions of colors for improved graphics support in your Windows 95 applications and more realistic gameplay!

Accelerated for Power Macintosh

Mac OS

Run Windows on Your Mac®!

You've got to get this software! With SoftWindows™ 3.0, you can run all of your Windows™ and MS-DOS® programs on your Power Mac 35% faster than with version 2.0. It's easy. Just install the software and the entire PC software platform is at your disposal. Think of all the applications you could use at work or home: Lotus® SmartSuite, Microsoft® Office, WordPerfect® and hundreds of other business, graphics, gaming and educational software titles.

And this version gives you SCSI support for accessing all your PC SCSI peripherals from your Power Mac. It offers faster networking and improved printing, so that your Windows print driver will support whichever printer you choose, even color! Plus, it includes MS-DOS 6.22 and Windows 3.11, and is Windows 95 ready.

- Run all your Windows 3.x applications, from Microsoft® Office to CorelDRAW™!
- It's Sound Blaster-compatible under Windows, so you can run Windows multimedia and games with full sound support
- Take advantage of all PC SCSI peripherals
